

Name: _____ Date: _____

Migration Scavenger Hunt

Before you start:

1. What do you know about refugees, internally displaced people (IDPs), and asylum seekers?
2. What is a push factor? What is a pull factor?
3. Give an example of each type of pull and push factor:
 - a. Cultural
 - b. Environmental
 - c. Economic
 - d. Political
 - e. Transportation
4. You are in danger & must leave your home immediately you have 30 minutes to pack a small bag of your belongings. What will you take and what will you leave behind?

Begin the Hunt!:

5. Go around the room (quietly) and use the QR codes to read/watch videos of the different stories of immigrants. Create a running list of different push and pull factors. (Label your list based on where they were emigrating from/immigrating to, reason for leaving, type of push factor, reason for going where they are going, type of pull factor)

Story/Video-- Hardships	Emigrating From	Immigrating To	Push/Pull Factors	Ravenstein's Law

When you are done:

6. Now, that you have read the stories of the immigrants, imagine that you yourself have emigrated from your home country. Write a journal entry talking about what made you leave (push/pull factors), why you decided to go to the country you ended up in, and what difficulties you might face settling in a new country.
